

Story

Date	20 March 2025
Team ID	LTVIP2025TMID26708
Project Name	Measuring the Pulse of Prosperity: An index of Economic Freedom Analysis
Maximum Marks	5 Marks

In Tableau, **Story** is a feature that allows you to create a sequence of dashboards, visualizations, and text to present data insights in a cohesive and narrative-driven way. It's like a slideshow within Tableau that guides the audience through a series of data points, helping them understand key insights, trends, or outcomes of your analysis.

Observations:

2025 Economic Freedom Score:

Tableau visualization analyzing the "2025 Economic Freedom Score" (using 2022 data), highlighting its geographic distribution and potential comparative insights. The software interface and data fields suggest a detailed analysis considering various factors related to economic freedom.

Top 40 Ranking Countries:

Tableau visualization focused on the top 40 countries in the Economic Freedom Index, displaying their 2022 scores and geographic distribution. The use of "World Rank" as a filter and the labelling with scores provides a clear representation of the top-performing countries.

Bottom Ranking Countries:

Tableau visualization focused on the bottom-ranking countries in the Economic Freedom Index, displaying their 2022 scores and geographic distribution. The use of "World Rank" as a filter and the labelling with scores provides a clear representation of the lowest-performing countries.

Index Score based on financial freedom:

Tableau visualization comparing the "Index Score based on Financial Freedom" across different regions using a horizontal bar chart. The numerical values and colour coding provide a clear comparison of financial freedom scores across regions.

Index score based on population:

Tableau visualization comparing the "Index Score based on Population" across different countries using a horizontal bar chart. The colour coding and country labels provide a clear comparison of index scores across populations.

Index score based on 5 year GDP growth rate:

Tableau visualization comparing the 5-year GDP growth rate across different countries using a line chart. The numerical values and country labels provide a clear comparison of GDP growth rates.

Inflation rate in different countries:

Tableau visualization comparing the inflation rate across different countries using a line chart. The numerical values and country labels provide a clear comparison of inflation rates.

Correlation between GDP and Monetary freedom:

Tableau visualization exploring the correlation between GDP per capita (PPP) and monetary freedom across different countries using a dual-axis line chart. The chart allows for a visual comparison of the trends of both variables and potential insights into their relationship.

Top 40 countries by GDP growth rate:

Tableau visualization comparing the 5-year GDP growth rate for the top 40 countries using a scatter plot (or dot plot). The color coding and country labels provide a clear comparison of GDP growth rates among these top-performing countries.
